

Deliver your online orders with InhouseDelivery

Just create your IHD account to get started today!
<https://www.inhousedelivery.com/partners/spillover>

STOP sharing your MARGIN and your key customer DATA.

Restaurants can offer direct delivery to customers by utilizing our partnership with InhouseDelivery (IHD) and their vast network of drivers.

Your customer is charged a reasonable cost for the delivery and all the logistics are handled by IHD and accessible via their software portal.

Stop paying 20-30% for food delivery and take control of your own customers.

Your only cost is a \$1.50 service fee per delivery for execution, support, and portal software.

Additional benefits:

- No contracts or install, monthly, or support fees.
- Multiple delivery model options including using your own drivers.
- Ability to still use 3rd party services via IHD Hub but with margin savings and direct data capture.
- Complimentary use of Social Schedules to manage your time, attendance, and labor costs.
- IHD support handles all refunds, issues, cancellations, and driver assignments.
- Customers get a great location-based delivery price with multiple drivers bidding for the order.
